

# JANNATUL MAWYA

Data science, Project Associate

## EXPERIENCE

### Women In Digital-*intern*

(From 1-8-23 to 20-10-23)

Here I have started learning on Blockchain. Blockchain is a revolutionary technology that has gained significant attention and popularity in recent years. I also work on a thesis titled, "Attribute based access control using hyperledger blockchain".

### Women In Digital-*Blockchain Trainer*

Here iam working as a Blockchain Trainer and took several nationwide codingcamp in many universities of Bangladesh

### Farhana's Brainstation-*Project Associate(Volunteer)*

Here iam working as an IT specialist. And doing a project under SDG for ensuring quality education.

### SimpliSolve-*Data Science(Trainee)*

Here iam working remotely in Data Science track. And learning different types of ML models and works with different datasets.
